

Raphael House Pre-Recorded Video Topics

Career Development Topics

All videos can be recorded in either Spanish or English, with the exception of a few topics noted below that are only needed in Spanish and say “in Spanish only”. These videos are geared towards Raphael House parents who are in our Residential Shelter or participating in our Bridge Program. Families in our Bridge Program formerly lived in Residential Shelter, successfully found stable housing and are now receiving supportive services from Raphael House to ensure they remain stably housed and financially stable. Any questions can be directed to Kellen Sarver, Community Engagement Manager, at ksarver@raphaelhouse.org. You can also learn more about Raphael House at www.raphaelhouse.org.

 - How to use Zoom
 - How to use Google Meets
 - How to set up your camera/ background for a professional setting. Best angles/etc

Children's Program Topics

All videos can be recorded in either Spanish or English. These videos are geared towards Raphael House children of all ages, but the primary age group who tend to engage with video activity content are ages 3-8 years old. These children are either children living in our Residential Shelter or children whose family continues participating in Raphael House services through our Bridge Program. Families in our Bridge Program formerly lived in Residential Shelter, successfully found stable housing and are now receiving supportive services from Raphael House to ensure they remain stably housed and financially stable. Any questions can be directed to Kellen Sarver, Community Engagement Manager, at ksarver@raphaelhouse.org. You can also learn more about Raphael House at www.raphaelhouse.org.

All videos should ideally be about 5 minutes long, but depending on topic can be up to 10 minutes if more time is needed.

- **Storytime for Toddlers: video of a volunteer reading a book**
- **Breathing/meditation/ self-calming techniques for kids**
- **Short yoga class or poses for kids**
- **Step by step art project tutorial**

**Raphael
House**

Inspiring Families.
Illuminating Hope.

- Art projects should consist of basic art supplies like paper, crayons, glue sticks, scissors, etc. that we already have on hand to provide to kids who wish to participate.

Sub categories

- art project geared towards toddlers
 - art project geared towards kids ages 5-12
 - art project for teens
-
- **Activities for families to do with their children:**
 - A current priority need is information and/ or activity ideas for parents to do with their babies- toddlers focusing on a certain age group (ie. activities to do with your 5 month old) + how each activity helps the child developmentally if you have that information.
 - Videos can be for any/ all age groups from newborn - teens, with priority for age group newborn- 4 years old.
 - Volunteers don't need to be experts on the topic- simply doing some research on the internet and breaking it down to a simple video would be super helpful for Raphael House parents who don't have the time to sift through the information available online!
