

LET'S PICK UP where GREENWALD LEFT OFF

By publicizing Edward Snowden's courageous revelations of US government surveillance, Glenn Greenwald and Laura Poitras have made a huge contribution to civil liberties here and around the world.

Now it's up to us!

Please join our campaign to defend constitutional rights and stop the government from spying on innocent people.

Who we are and what we do

The Bay Area Civil Liberties Coalition works actively to empower individual efforts and collective initiatives to support civil rights and defeat illegal government spying.

In collaboration with other members of the Bay Area civil liberties community, we have accomplished a great deal. Just in the past year, we

- Defeated plans to expand the Oakland Domain Awareness "Spy" Center
- Passed through the California Senate SB828, The Fourth Amendment Protection Act, which prohibits California from cooperating with the NSA until they comply with the Fourth Amendment
- Organized "Shame On Feinstein," a trans-partisan coalition to put pressure on Senator Feinstein to stop defending mass surveillance

Participating Organizations

Bill of Rights Defense Committee (bordc.org/about; email: matthew@bordc.org)
