

The numbers are almost too big to believe.

Every **11 seconds** of every day and night, the **government spends \$1 million**. That's \$5 million every minute; almost 2.8 trillion every year.

And who pays for this spending spree?

You do – every penny of it, whether directly through your income tax or indirectly through business taxes.

It doesn't have to be that way, though. With less government and dramatically lower taxes you could keep more of what you earn – and not have to worry about red tape, audits, and IRS harassment.

The U.S. Government Spends
\$1,000,000
Every Eleven Seconds!

Yes! I'm interested in learning how we can start to slash taxes! Please send me your free, no-obligation package.

Mail to:
The Libertarian Party
2600 Virginia Avenue NW, Suite 100,
Washington DC 20037

Visit the Libertarian Party website: www.LP.org

The Libertarian Party believes that your taxes should be *much lower* – and we're working every day to achieve that goal. Libertarians believe if government were limited to protecting our lives, our Constitutional rights and our property, then it could do those things better and

at a small fraction of the cost.

If you agree action is needed now to start slashing government spending – and the taxes you pay – then **please use the attached coupon to request additional information about the Libertarian Party.**

Act now. Every minute you wait is another \$5,000,000 of *your* money wasted.
